Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of the Claims

Claims 115 and 122-135 are pending, and the subject of this Office Action.

Applicants' arguments, filed on 11 September 2006 has been fully considered and are deemed to be persuasive regarding previous rejection.

Rejections and objections not reiterated from previous office actions are hereby withdrawn. Unfortunately, upon reconsideration of the pending claims, as presented, the following new rejections are applied. They constitute the complete set of rejections being applied to the instant application presently.

Claim Rejections - 35 U.S.C. §112.1

The following is a quotation of the first paragraph of 35 U.S.C. §112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 115 and 122-135 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Applicant, in its Remarks filed on 11 September 2006, amended claim 115, incorporating the subject matter contained in previous claims 116 and 117, but also changed the scope of the invention by claiming a method of “selective disruption of cells in a selected region ...wherein the cells comprise lysosomes in which rose bengal accumulates ...”

A review of application as filed does not disclose the invention embodied by the present set of claims. In addition to what is referenced herein, *supra*, a review of the application and present claims has determined a discrepancy regarding to what the dosage is directed compared to what the dosage was directed previously. Previously, there was no selected region in the subject for receipt of the dosage whereas now the lysosomes are the selected region, and this is not supported by the specification. And if the same is supported, Applicant has failed to draw attention to the page and line numbers in the specification that support its amendment.

In light of the foregoing and absent any express evidence to the contrary, claims 115 and 122-135 are rejected, because they contain new matter not supported by the specification. This is a new matter rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1614

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
